Take a look.

Got this below from FEAD to find an RD person to speak at SFIREG upcoming about drones. I'm inclined to decline or push back on basis (as we have been reminded by FEAD and the states) that this is not designed for OPP to move issues through. Instead – states can use the time as they want.

But certainly want you all's blessing/advice on the wisdom of that here.

Hi Dan,
SFIREG has requested an EPA speaker to present on UAVs at the June 3-4 meeting (latest agenda attached). Is there someone from RD who would like to present? Ed has said he will do it if no one else can, but wants to give someone else a shot.

Thanks,
Emily

I would like to give someone else a try but can do if no one else can.
